

HeatPro® 50,000 BTU Low Ambient

»»» Heat and Cool Heat Pump

ECONOMICAL TEMPERATURE CONTROL
OPTIMIZED FOR SMALLER POOLS

TAKE A DIP—EVEN WHEN TEMPERATURES DO TOO.

With lower energy requirements than natural gas and propane heaters, the HeatPro heat/cool heat pump platform is an economical temperature control solution optimized for smaller pools. Providing ideal water temperatures even under harsh conditions, it gets the swim season off to an earlier start in the spring while also extending it later into the fall. Plus, with a built-in programmable timer, it creates comfortable water to suit any schedule.

EXPERT LINE™
ONLY FROM POOL PROS

Digital control panel displays temperature and allows for simple control of settings

Advanced heat pump technology uses less energy than natural gas and propane heaters

Efficient rotary compressor and low-noise fan guarantee extremely quiet operation

Durable titanium heat exchanger provides exceptional corrosion protection

AHRI certified and independently lab-tested to ensure the highest quality performance and value.

SPECIFICATIONS

MODEL NUMBER	HP50HA2
BTU Heating Performance	47,100
System RLA (amp)	15
Power Supply	208-230V/1Ph/60Hz
Compressor	Rotary
Fan Direction	Horizontal
Water Connection	1.5" with barb fittings
Water Flow Volume (min-max)	16-25 GPM
Unit Shipping Dimensions (in.)	44.9" D x 18.9" W x 36.3" H

DIGITAL CONTROL PANEL
Streamlined interface offers fast and easy operation.
